NO. 112.

What is

## CASTORIA

Castoria is Dr. Sam'l Pitcher's old, harmless and quick cure for Infants' and Children's Complaints. Superior to Castor Oil, Paregoric or Narcotic Syrups. Children cry for Castoria. Millions of Mothers bless Castoria.

Castoria cures Colic, Constipation; Sour Stomach, Diarrhea, Eructation; Gives healthy sleep; also aids digestion; Without narcotic stupefaction.

"I recommend Castoria for children's complaints, as superior to any prescription known to me." H. A. ARNOLD, M.D., 111 So. Oxford St., Brooklyn, N.Y.

THE CASTORIA COMPANY, 77 Murray St., New York.

### MISCELLANEOUS.

#### THE CALIFORNIA POWDER WORKS,

230 California Street,  
SAN FRANCISCO,  
Manufacture and have constantly on hand  
SPORTING,

#### MINING, and BLASTING POWDER,

A superior quality, fresh from the mills. It is being constantly received and transported into the interior, is delivered to the consumer within a few days of the time of its manufacture, and is in every way

Superior to Any Other Powder

In the market. We have been awarded

Three Gold Medals!

At the MECHANICS' INSTITUTE and the State Agricultural Society for the superiority of our products over all others. We call attention to our

#### Hercules Powder,

Which combines all the force of other strong explosives now in use, and the lifting force of the very

#### BEST BLASTING POWDER,

Thus making it vastly superior to any other compound now in use.

Circular containing a full description of this Powder can be obtained on application at the office of any of our agents.

JOHN F. LONCE, Sec'y.

#### ORDINANCE NO. 12,

Of the Town of Reno, Washoe County, Nevada.

An Ordinance to Further Define the Fire Limits of the Town of Reno, and Making Regulations Concerning the Erection and Use of Buildings in Said Town.

THE BOARD OF COUNTY COMMISSIONERS of Washoe county do ordain as follows: SECTION 1. The following described territory is hereby added to the fire limits of the town of Reno, to-wit: Commencing at a point in the center of Sierra and Fourth Streets, thence extending northerly with the center of Sierra street to the center of Fifth street, thence easterly with the center of Fifth street, to the center of Lake street, thence southerly with the center of Lake street to the center of Fourth street, thence westerly with the center of Fourth street to the place of beginning.

Sec. 2.—That all the provisions of the Ordinance entitled "An Ordinance to Define the Fire Limits of the Town of Reno, and Making Regulations Concerning the Erection and Use of Buildings in Said Town," passed June 5, A. D. 1889, shall in all respects be and the same is hereby made applicable to the above described limits.

**R. W. PARRY,**  
PROPRIETOR OF

## HEALTH OF CALIFORNIA.

Unusual Mortality in the State During January.

The January circular of the California State Board of Health is at hand.

Mortality reports received from ninety-four localities, containing an estimated population of 801,700, give the number of decedents as 1,385, a percentage of 1.72 per 1,000 in the month, or an annual mortality at the rate of 20.64, which is the largest death record we have had for many years. The greatly increased mortality is not owing to any epidemic of what is usually called zymotic disease, but is attributable to a mysterious pandemic influence which renders the human system particularly liable to pulmonary disorders, and particularly fatal to those whose lungs are already diseased or which take on acute inflammation. Consumption was fatal in 270 instances. This is double the usual monthly mortality from this disease, and exemplifies the depressing influence of the epidemic catarrh which is now passing over the State. Pneumonia caused no less than 228 deaths, which is more than double the usual monthly mortality. In San Francisco the deaths from this cause were 141, and in Los Angeles, where the climate is particularly favorable in these cases, the deaths numbered 18; in Sacramento, with an equally good climate, the deaths were 7; and in Santa Barbara 5 deaths occurred from this cause.

The principal causes of death and the mortality due to each were as follows: Alcoholism 20, heart disease 93, erysipelas 1, cancer 34, cerebro-spinal fever 11, remittent and intermittent fevers 6, typhoid fever 28, typho-malarial fevers 2, whooping cough 1, measles 4, scarlet fever 7, diphtheria 21, cholera infantum 3, diarrhoea and dysentery 11, other diseases of the stomach and bowels 36, congestion of the lungs 27, acute bronchitis 57, acute pneumonia 228, consumption 270, other causes 506. Total deaths, 1,385.

Reports received from 98 different localities indicate an extremely limited prevalence of zymotic diseases, such as diphtheria, scarlet fever, measles, typhoid and kindred specific affections, those mentioned being few in number and sporadic in character, whereas diseases of the respiratory organs, dependent in some measure upon meteorological conditions, exhibit a frequency and fatality which is phenomenal in this State. That this is owing to the great pandemic wave of epidemic catarrh, which is now spreading all over the State, rendering the populace more susceptible to inflammatory affections of the lungs, may be accepted as the probable explanation of the unusual frequency of the respiratory diseases which have prevailed during the past month. Those suffering from consumption were affected in a remarkable degree, prostration being the most noticeable symptom, and this often so severe that death ensued in a few days.

Influenza, epidemic catarrh, or la grippe, prevailed extensively throughout the State from San Diego to Siskiyou. Dr. Tuily, in a letter from Sierra City, says that it is there characterized by its tendency to attack the bronchial tubes and the substance of the lungs, but so far no deaths have occurred from it. In Gonzales, Dr. Hertel reports the disease as abating. In Salinas, Dr. May Gidson reports the disease as epidemic. Dr. Hayden reports a large number of cases in Fresno. Dr. Tebbits also reports it epidemic in Tulare. In Redding, Dr. Mitchell says the disease is in a mild form, few cases requiring medical assistance. In Marysville, Dr. Powell reports influenza, but does not think it genuine la grippe. The majority of our correspondents report the disease in a mild form and without fatality. Its mode of attack differs in many particulars. It may manifest itself in sneezing, headache, chilliness, cough, sore throat, earache, vomiting or diarrhoea, or constipation, fever, dizziness, pain in the limbs, or nervous twitching, but none of these symptoms are constant. Heaviness over the eyes, redness of the eyeballs, intense pain in the back, in the limbs and through the muscles, with a feeling of constriction round the throat and chest, are the commonest symptoms observed in la grippe. Its chief characteristic is, however, the extreme debility and prostration which accompanies its advent. This, with intense mental depression and profuse sweating, protracts the convalescence much longer than it might be supposed; and, although the fever, headache and muscular pains last but a few days under proper treatment, the heart depression, muscular weakness and nervous debility take some time to overcome. As the cause of the disease is at present unknown, we can advise no means of prevention, but would recommend that medical advice be sought in all cases, as those suffering from previous disease, or debilitated from any cause, are very apt to succumb to a severe attack of la grippe, owing to the intense nervous prostration that ensues, and the tendency to heart failure that always accompanies the disease. Under proper stimulation, this may be overcome, but to administer stimulants judiciously requires an educated judgment and a perfect comprehension of the object to be attained.

## Squatters Ordered Off.

CHAMBERLAIN, S. D., Feb. 14.—The work of settlement goes on quietly. The military to-day warned the boomers who had squatted on Indian lands to get off at once. Major Anderson swooped down on a crowd of gamblers and confiscated all their traps.

Special to the Journal.

CHAMBERLAIN, S. D., Feb. 14.—The work of settlement goes on quietly. The military to-day warned the boomers who had squatted on Indian lands to get off at once. Major Anderson swooped down on a crowd of gamblers and confiscated all their traps.

## SPEAKER REED VICTORIOUS

## THE HOUSE ADOPTS HIS QUORUM RULE BY A PARTY VOTE.

Generals Miles and Denet appear before the Senate Committee on Coast Defences.

## House Proceedings.

WASHINGTON, Feb. 14.—Outhwaite's motion striking out the clause constituting 100 members a quorum in the Committee of the Whole, was rejected. He pointed out that rule 23, which reads: "Motions or propositions originating either in the House or Senate, etc." would, by implication and against the Constitution acknowledge the right of the Senate to originate revenue bills. He moved an amendment of this, which was adopted. The Speaker stating that there had been no intention on the part of the committee to make such an acknowledgment. A motion by Crisp to strike out the clause confirming upon the Speaker power to count a quorum, and by Mills to strike out the clause that no dilatory motions be entertained by the Speaker were lost.

The rules were then adopted by a strict party vote, yeas 161, nays 145.

House adjourned.

## Senate.

WASHINGTON, Feb. 14.—A number of bills were passed, including the following:

House bill for relief of sufferers by the wreck of the United States steamer at Samoa; for the relief of soldiers or sailors who served under assumed names; to prevent the obstruction of navigable waters, and protect works against trespass or injury; appropriating \$125,000 for the United States revenue cutter for services on the Pacific Coast, with headquarters at Astoria, Oregon; providing for the acquisition of land for town sites and commercial purposes in Alaska; to prevent the introduction of contagious diseases from one State to another, concurrent resolution for international arbitration; a bill to declare unlawful trusts and combinations in restraint of trade and production having been reached on the calendar it was laid aside for the present. These were sixty bills passed.

\$97,000,000 for the Defense of Our Country.

## Special to the Journal.

WASHINGTON, Feb. 12.—The preparation of the urgent deficiency appropriation bill has been begun by the House Committee on Appropriations. The largest item in this deficiency bill will be about \$21,500,000 on account of pensions. The total expenditure for pensions this year, including this deficiency appropriation, will be about \$97,000,000, against \$95,000,000 last year, about seven millions of this is brought over from the previous year.

The World's Fair Committee Reports.

WASHINGTON, Feb. 14.—The House Committee, to which the various World's Fair bills were referred, completed its report this morning. It says it found it impracticable to report one bill to cover all the localities, it therefore submits two substitute bills on the question of selecting a site. It offers a resolution to the effect that at the close of debate on the bills the House shall begin voting on a site, and not close until one is selected.

## Mad Dogs in London.

LONDON, Feb. 14.—No fewer than eight men and boys were bitten to-day by a rabid dog, which was at last destroyed by the police. The sufferers were sent to the Pasteur Institute.

Of the 1,933 stray dogs captured by the police within a month, twelve were killed as mad, and when their bodies were examined by a veterinary surgeon, it was found that seven were suffering from rabies.

## A Defaulter After Twenty Years.

WASHINGTON, Feb. 14.—J. C. Jewell, Receiver of the Washington and Georgetown street railroad, and a young man well known and highly connected in Washington, has absconded with \$1,650 belonging to his employers. He had been in the employ of the company twenty years. They placed implicit confidence in him. Whisky is supposed to have caused his downfall.

## Farnell Asks a Question.

LONDON, Feb. 14.—Amid cheers of the opposition in the House of Commons to-day Farnell asked what action the Government proposed to take upon the report of the commission. Smith, the Government leader, replied that the Ministry had not had time to decide upon a course.

## Ex-Representative Page Heard From.

WASHINGTON, Feb. 14.—Ex-Representative Page, of California, has written a letter to the Chairman of the House Committee on Ways and Means severely criticizing Secretary Windom's adverse report upon the fur seal bill now pending in Congress.

## Nearing Completion.

OAKDALE, Cal., Feb. 14.—The last tunnel of the Oakdale Irrigation Company's canal is completed, making a quarter of a mile of tunnels, leaving three miles of scraper work to complete the canal.

## Ought to Be Protected.

Special to the Journal.

WASHINGTON, Feb. 14.—The Senate Committee on Coast Defences had before it to-day General Miles, Commander of the Division of the Pacific, and General Denet, Chief of Ordnance. General Miles said that the points of Point Sound, the mouth of the Columbia river, San Francisco and San Diego ought to be protected. The recommendations of the Board on Fortifications, if carried out would be sufficient. One of these recommendations was that a gun factory be established on the Pacific Coast. General Denet gave the committee figures on the cost of transportation to the Pacific Coast by land and water routes. He said inasmuch as one-third of all of the guns required to carry out the scheme proposed by the Board on Fortifications would be mounted on the Pacific Coast, the establishment of a foundry there would be a matter of economy.

## Mine Attached.

Special to the Journal.

VIRGINIA, Nev., Feb. 14.—The property of the Baltimore Mining Company, located on American Flat, was attached by the Sheriff to-day as security for the payment of \$3,028, due on a promissory note drawn in favor of Jacob Bertz, a resident of San Francisco. The preliminary papers in a suit for recovery, which have been filed in the District Court of this county. The attachment covers surface improvement and patented ground included in the Baltimore mine boundaries. The surface property includes steam hoist and pump plants, the original cost of which was about \$200,000, a five stamp mill and ore roasting furnace. E. Strother, Superintendent of the mine, holds two mortgages of \$10,000 each on the property of the company, executed several years ago.

## A Huge Machine for Mare Island.

Special to the Journal.

HAMILTON, O., Feb. 14.—The Niles Tool Works of Hamilton have finished and are now loading the immense armor plate bending roll that is to be sent to the Mare Island, San Francisco. The tremendous machinery weighs 400,000 pounds, and the freight will be something over \$10,000. A number of special flat cars have been built for the transportation of the load. The train will be run to the coast as a special. It is the largest single shipment and the finest machine that ever left Hamilton, where some magnificent machinery is built.

## Foul Murder of an Old Couple.

Special to the Journal.

OMAHA, Feb. 14.—The bodies of an old couple named Jones, living six miles west of Omaha, were discovered this morning hidden behind a barn on their farm. Both were perforated with bullets and had evidently been dead for some days. No clue to the murderers.

LATER.—Frank Offitt and Jerry Dee, two residents of South Omaha, were arrested this evening charged with murder. It is found that they sold cattle stolen from the place to a South Omaha commission house.

## Coroner's Verdict.

Special to the Journal.

GILROY, Cal., Feb. 14.—The Coroner's jury's verdict is that Maxfield came to his death by a bullet from a pistol in the hands of W. Paine. The prisoner was arraigned for murder and committed without bail for his preliminary examination next Tuesday.

## Traffic Resumed.

Special to the Journal.

PORTLAND, Or., Feb. 14.—The Southern Pacific Company are now running trains regularly between Aurora, 30 miles south of Portland, and Roseburg. The trouble now is near Oregon City, where the trestle is washed out. It is believed that by Sunday trains will leave this city for the South.

## Wool in Demand.

Special to the Journal.

BOSTON, Feb. 14.—There has been more inquiry for wool. Manufacturers are receiving more orders for their goods than they can fill, and are obliged to buy wool to cover them.

## Dropped Dead from Apoplexy.

Special to the Journal.

SAN FRANCISCO, Feb. 14.—Captain Gardner T. Lawton, President of the California Powder Company, fell dead in his office this afternoon from apoplexy.

## BELLES AS MODELS.

How the Pretty Blue Grass Girls Satisfy Their Vanity.

Louisville Commercial. An advertisement which looks rather odd appears in another column. It is that of a young artist who offers liberal terms to a young ladies of fine figure who will pose as his model. The attention of the reporter was attracted by the offer, and the artist was asked for some information concerning Louisville models. "It is very hard," he said, "to get suitable models in this city. In New York and other large cities they form a separate and distinct class. It is a profession, and an artist has only to make his choice from many applicants. There is a composite figure, perfect in every detail, may be obtained by using different models. One will sit for the head, another for the body, and another for the limbs. No model that I have ever seen is without some defects, but in this way the faults may be remedied. It is very different here in Louisville," he continued. "A fellow is lucky to get even a passably good model, and he must trust largely to his imagination to supply missing muscle, flesh and complexion." "What are the models? From what class do they come?" "That I cannot tell you," he answered. "Those who pose for the nude are always carefully to conceal their identity. They are usually girls who are vain of their beauty, and whose desire to see their outlines on canvases is much greater than the wish to make a little money. When a good model of this sort can be found she is far better than the average professional model, who is very apt to be stiff and wooden." He concluded with a hearty voucher for the morality of the average model.

## ELECTRIC FLASHES.

—Bar silver, 95.

—The Earl of Sydney died in London yesterday.

—M. E. Page, a Chicago confectioneer, assigned yesterday afternoon. Assets and liabilities each \$100,000.

—A Zanzibar special says a medical examination proved that the Sultan died of sunstroke.

—A land slide below Hamburg Bar, in the Siskiyou mountains, put a cabin into the Klamath river drowning three Chinamen.

—The Salem bank vault was entered by burglars Thursday night and ten thousand dollars in money and some securities were carried off.

—The bodies of an old couple named Jones, who lived six miles west of Omaha, were discovered yesterday morning hidden behind the barn on their farm.

—A fight to a finish at Oswego, Ill., Thursday night, between Reddy Brennan, light-weight champion of Montana, and John Ecker, was awarded to Brennan on a foul.

—In an exhibition at Dallas, Texas, Thursday night a pugilist by the name of Banzia knocked out Tom James, from the effects of which James died yesterday morning.

—Wang Hb Hing, who stabbed and killed his uncle, Wang Ming See, last April was hanged in San Francisco yesterday. Up to the last he seemed to think it was all very funny.

—W. B. Saunders, a Deputy U. S. Marshal, was brutally assassinated at Quincy, Gadsden county, Florida, Thursday afternoon, where he had gone with other deputies on official business.

—At Pontiac Thursday a vehicle conveying a bride and bridegroom and number of friends was upset and the whole party precipitated into the river. The bride and bridegroom and ten others were drowned.

—The French Council of Agriculture has voted in favor of imposing a duty of 3 francs on corn, 5 francs on oatmeal and its derivatives, 3 francs on rice in the husk, and 8 francs on broken and cleaned rice and rice flour.

—Dick Hawes, who murdered his wife and two daughters last December, at Birmingham, Ala., and who was tried, convicted and sentenced to be hanged on February 28th, has made a confession implicating others.

—Right Rev. William Paret, Bishop of Maryland has delivered a charge to the clergyman of his diocese charging the Roman Catholic church with making attempts through social and political influence to gain control of the nation.

## WHAT ON EARTH

Is the reason people will not, can not or do not see any difference in cheap nostrums put up by cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at such prices? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEECH'S BLOOD PURIFIER AND BLOOD MAKER, and every bottle that does not do its work will cost you nothing.

OSBURN & SHOEMAKER, Druggists

## NEW TO-DAY.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low test, short weight alums or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 100 Wall Street, New York.

## STOCKHOLDERS' MEETING.

SOUTH SIDE DRAIN DITCH COMPANY. Notice is hereby given that the annual meeting of the stockholders of said company will be held on Saturday, March 1st, 1890, at the office of the Secretary, at the Court House, in Reno, at 2 o'clock P. M., for the election of five Trustees for the ensuing year, and for the transaction of such other business as may properly come before the meeting. A full attendance is particularly desired. JNO B. WILLIAMS, Secretary. RENO, Nevada, February 15, 1890.

Auctioneer.

## DAILY NEVADA STATE JOURNAL

PRICE OF DAILY JOURNAL,  
12 CENTS PER WEEK.

## BREVITIES.

There will be a big silver meeting in New York City this evening.

Attend the valentine social in Armory Hall to-night and enjoy yourself.

There will be a meeting of the State Board of Agriculture on the 25th.

D. A. Bender is in town yesterday morning, but returned to Carson on the local.

W. S. Bailey will leave for Churchill to-day to see how everything is down in that section.

A project is on foot at Seattle to build one of the finest Masonic temples in the United States.

The Weekly Journal published to-day, it is, as usual, a splendid sheet of 42 columns. Only \$2 per year.

Quite a number of Renosites went to Carson yesterday afternoon on the local to attend the dance given by the Capital's "400."

Capt. Knight, one of the early Central Pacific conductors, was on yesterday morning's west bound train, having been out to Ogden on a trip.

The annual meeting of the stockholders of the South Side Drain Ditch Co., will be held on Saturday, March 1st, in the Court House. See official notice elsewhere.

The faculty and students of the School for Girls will heartily welcome all patrons and friends of the school, to meet Bishop Leonard on the evening of Monday, Feb. 17th, from 7.30 to 10 P. M.

The silverman now announce, positively, that they will hold their great mass meeting in New York for the discussion of the free coinage problem on the evening of February 18. Tom Fitch proposes to deliver a speech which will be the great effort of his life.

The Timber Lands of Lassen County.

The Lassen Advocate publishes the following.

The enormous wealth that will come to this country from the development of its lumber resources are little appreciated. Thriving cities have been built from the opening of smaller timber belts. These forests are found mainly westward from Susanville, extending southwest 12 to 30 miles to the Plumas county line, to the crest of the Sierras, and westward 36 miles by section lines, to the very headwaters of Susan river. North of this river a distance of six to ten miles, the ground rises gradually to the divide separating its waters from those which flow north into Pine Creek, and thence into Eagle Lake. This vast Susanville belt naturally comes down the Susan river to Susanville. Beyond the Pine Creek divide, and around Eagle Lake, is a large body of timber which naturally goes down to that lake. Still to the northwest, railroads will be required to transport the lumber. There are also fine timber tracts south of Eagle Lake; in the northwest of the county and on the mountains bordering Big valley and Pitt river; in the northeastern part of the county; and all around the foot of the Sierras between Susanville and Jacksonville. Southeast of the latter place, and back (south) of Buntingville, Milford, and all around the Sierras up Long Valley, there is timber for domestic use and fuel, but the lumber is mostly cut out. Firewood is found in many localities, not named, such as jumper, manzanita, etc.

The timber lands described, including only that of good quality for sawing, is conservatively estimated to be more than 895,400 acres, or 1400 square miles. It is mainly Government land, as there has been no outlet for the lumber. The local demand for 35 years, although many millions of feet, has merely served to saw out the foothills. It includes every quality of pine, from the hardest, solid with pitch, to as beautiful clear sugar pine as grows in California or Oregon, and large amounts of cedar, invaluable for fence posts, or any use where lumber comes in contact with the ground. There is yellow, black, sugar and white pine, named in the order of the quantity. Much of this yellow pine is clear, and first quality for dressing. Sugar pine is esteemed the best pine in the world. There is also cedar, white and red fir, larch, tamarack, spruce, hemlock, abietine, etc. The latter wood (pine) is invaluable for special purposes, such as pattern making. From it is distilled a valuable medicinal balsam.

The tract described, extending from Susanville 36 miles westward to the crests of the Sierras, is primeval forest, including every quality of timber named. Most of this timber will make good lumber, and competent experts say that it will cut from 30,000 to 50,000 feet per acre. It is unusually accessible. The surface is mainly free from rocks and underbrush, and logs can readily be hauled to the river or its tributaries, sawed, driven to the valley, and delivered to the railroad soon to be built, within 15 miles. It can be run down the smooth valley in a V-dune, such as is uniformly used on the Pacific coast for transporting lumber from the mountains to the railroad, the sides being two and a half to three feet high. Ties, timbers posts and fuel, as well as lumber, can be delivered in any quantity by the flume, or perhaps by a railroad. Nature never provided a more feasible enterprise. A railroad up the river westward through the Fredonia Pass, already described, is a certainty in the future, while our railroad to Reno opens to us the market eastward.

## Good for the Schools.

WASHINGTON, Feb. 13, 1890.—Hon. J. E. Jones: The Secretary has approved list eight and supplemental list eight, aggregating 223,556 31 acres.

ISAAC FROHMAN,  
Nevada Land Agent.

The above dispatch was received in Carson yesterday, says the Tribune, and shows that the Department is moving in the approval of Nevada lands. Within six months, when contracts shall have been issued on the applications embracing the above acreage, our School Fund will be increased by an annual sum of \$13,413 47 interest.

## A. O. U. W.

The Assessments Levied by the Order Last Year.

Supreme Recorder M. W. Sackett of the A. O. U. W., has prepared a table showing the number of assessments levied last year in the different jurisdictions—the various States and Ontario. In California there are twenty-two assessments. Tennessee had the largest number with thirty-five. Next comes Ohio and Kentucky with thirty-one each. Oregon and Washington together had twenty-five. Kansas had the smallest number with only eleven. Pennsylvania had twenty-two, Indiana twenty-three, Iowa sixteen, New York twenty-one, Illinois nineteen, Missouri nineteen, Minnesota sixteen, Wisconsin twenty-one, Michigan sixteen, Ontario twelve, Massachusetts twelve, Texas ten, Nevada twenty-three and Nebraska eighteen. The total number of assessments for the year were 446, and the average number for the respective jurisdictions nineteen.

## PERISHED IN THE SNOW.

Joseph Silve Frozen to Death in the Junipers.

The Silver State says that last Summer Joseph Silve, a Frenchman, bought a band of cattle and drove them up to Orooked Creek, Oregon, a tributary of the Owyhee, to range. He left camp during a storm while the deep snow was on the ground, to look after his cattle, and did not return. Search was made for him and his body was finally found, with the horse which he had been riding, frozen stiff in the snow. It appears that he got lost and led the horse in a circle through the deep snow until he became exhausted. The full particulars of the sad affair have not yet been received, as it occurred in an out-of-the-way place, remote from mail communication. Mr. Silve was a highly respected young man, and his remains are being taken to Paradise for interment.

## Postmaster General's Prizes.

Postmaster General Wanamaker is desirous of securing the most efficient service in the railway mail branch. For this purpose he has offered twelve gold medals as prizes. The following official announcement from General Superintendent Bell explains the merits of this action:

POSTOFFICE DEPARTMENT,  
OFFICE OF GENERAL SUPERINTENDENT,  
RAILWAY MAIL SERVICE,  
WASHINGTON, D. C., Feb. 6, 1890.

[General Order No. 308.] I have much pleasure in announcing to the railway postal clerks throughout the entire railway mail service, that the Honorable Postmaster General has decided at the close of this year (1890) to present twelve gold medals to the clerks in the railway mail service. They shall be known as the "Postmaster General medal," one of which will be awarded to the clerk in each of the eleven divisions who shall, during the year 1890, have made the best general record on the largest number of cards representing Post-offices, distributed by routes or by counties, modified by the class of the clerk, the number of separations, the cards per minute, the error slip record and the carwork of the clerk.

The twelfth medal will be awarded to the clerk of any division who shall during the year correctly distribute in the shortest time and with the largest number of separations, cards representing the greatest number of Post-offices. In awarding this medal special consideration will be given the rapidity with which the distribution has been accomplished.

The examinations will be conducted in accordance with the general rules adopted at the Convention of Superintendents in September, 1889, and approved by this office.

There must be no duplication of the cards handled, as for example, the number of offices in a section or sections of a State cannot be added to an examination on a whole State. Local schemes will not be taken into account, nor will a State be counted by both routes and counties. The reading test will be considered in the clerk's general record, but not be included in the case examinations.

Committee to determine the award of the division medals, will be selected by the clerks in their respective divisions in a manner to be arranged by the Division Superintendent, and a committee to award the twelfth medal will be designated by the General Superintendent.

## "The Snowbound."

As a number of Reno residents subscribed for "The Snowbound," a souvenir of the snow blockade, and its publication has been delayed (on account of some engravings) longer than expected, the Journal desires to advise them that those who have subscribed will receive their copies by the 20th inst. and new subscriptions will be received up to that date at 25 cents per copy, by addressing with price, "The Snowbound," care Chronicle office, San Francisco.

## Dead Cattle.

Frank Burton tells the Silver State that the loss of cattle up the Little Humboldt is almost incredible. Henry Pratt lost about 200 head of those which he was feeding. They were poor and perished during the cold spell in January. In his (Burton's) field there is a cave into which twenty-six head of cattle crowded and died. The horses actually wore the hair off their legs and noses pawing and rooting in the snow for something to eat.

## Will Start the Mill.

The annexed is taken from the Battle Mountain Central Nevada.

Col. W. S. Wilson, the indefatigable, passed through town from Mayville on his way to Reno. He informed us that he would start his mill up in about ten days. He is satisfied that there is more water than will be necessary to run half a dozen millings. He is now building a new tank of 10,000 gallons capacity. There is a large amount of ore at the mill and several hundred tons at the mines. We expect to hear of a large shipment of bullion inside of a month.

Go to Lange & Schmitt's for ranges, and cook stoves. Best assortment in the State.

## THE HIBERNIA BANK.

One Per Cent. Advance in Interest Rate by Hibernia Bank—An Important Factor in the Loan Market.

The subjoined is excerpted from the San Francisco Bulletin, of Thursday:

At a meeting of the Directors of the Hibernia Savings and Loan Society, held yesterday, it was decided to advance the rate on city real estate loans from six to seven per cent., and on country loans from seven to eight per cent. Ordinarily a change of one per cent. in the rate of interest by a single bank is of no great importance, but in this case it is of considerable significance. The Hibernia Bank is the largest savings bank in the country, outside of a few on the Atlantic seaboard, and its line of real estate loans is correspondingly heavy. Another peculiarity about the bank is the fact that it has only one rate for all its customers, and as this rate has heretofore been below that of any other banks it has the pick of loans. Still another peculiarity is the fact that when the Directors of that bank make a change in the rate, it is probable that their action yesterday was the result of as much deliberation as when they made the previous change, though the general officers of the bank are not the same as then.

The change in the rate of interest at the Hibernia Bank, just announced, is the first since May, 1882. That change was thus referred to at the time by the San Francisco (Mages's) Real Estate Circular, under date of June 1, 1882: "The passage of the Chinese bill and the rate of interest by the Hibernia Bank to 6 per cent. per annum, the bank paying the mortgage tax, have both had a very decidedly beneficial effect upon real estate. The sales have increased very much within two or three weeks. Many sales, which had been hanging in suspense for two weeks were closed after those two occurrences, buyers feeling much more sure that prices are still very likely to move upward." Whether this prediction has been altogether realized we do not pretend to say. The fact, however, that money could be had in such large amounts at 6 per cent. when the other banks were generally charging 7 per cent. no doubt did help the movement in real estate. At the same time it placed the Hibernia Bank at a disadvantage with its rivals in the matter of dividends to depositors, though its bond investments have happily helped to increase the dividend account.

The importance of the rate of interest adopted by the Hibernia Bank is best illustrated by showing the proportion of loans on the city real estate in comparison with the loans made by all the other city Savings Banks. We annex such a comparison for the past eight years, during which interval the rate of interest at the Hibernia Bank has been uniformly 6 per cent., while the general rate at the other banks has been 7. The figures are from Mages's circular:

	Hibernia Bank.	Other City Savings Banks.
1882.....	\$2,218,769	\$3,402,130
1883.....	2,207,513	4,183,287
1884.....	2,792,214	4,183,287
1885.....	2,831,512	4,317,864
1886.....	1,982,963	3,549,934
1887.....	2,358,776	3,776,064
1888.....	5,050,470	6,000,223
1889.....	6,125,055	4,579,565
1890 (Jan)....	459,227	379,725

Total.....\$26,027,097 \$34,018,911  
The loans on city real estate by the City Savings Banks in the above interval of eight years and one month amounted to \$60,348,000, of which the Hibernia Bank loaned over 43 per cent., all at 6 per cent. During the past two years the Hibernia Bank has loaned 54 per cent. of all the bank loans on city real estate.

These are significant facts. The low rate of the Hibernia Bank has been cutting into the city business of the other banks very materially in the past two years, but most of these banks have more than made good that loss by an increase in other loans especially in real estate loans outside the city. The effect of the increase in the rate of the Hibernia Bank will enable that bank to earn better dividends for depositors. At the same time it may have an important bearing on real estate activity, especially if it should lead in any way to higher rates at the other banks. The change evidently obliterates, for the time being, at least, the 6 per cent. rate on real estate from all the banks, for, although the other banks have been asking 7 per cent. they have loaned occasionally, especially large sums on prime security, as low as 6, in order to retain the business. With the competition of the Hibernia Bank on that basis removed, they will not be likely to make any more 6 per cent. loans. The high rate of taxation (all mortgages being assessed at their face value) has also been an element in bringing about the change from 6 to 7 per cent.

## Advice to Mothers.

Are you disturbed at night and broken of your rest by a sick child suffering and crying with pain of cutting teeth? If so send at once and get a bottle of Mrs. Winslow's Soothing Syrup for Children Teething. Its value is incalculable. It will relieve the poor little sufferer immediately. Depend upon it, mothers, there is no mistake about it. It cures dysentery and diarrhoea, regulates the stomach and bowels, cures wind colic, softens the gums, reduces inflammation, and gives tone and energy to the whole system. Mrs. Winslow's Soothing Syrup for Children Teething is pleasant to the taste, and is the prescription of one of the oldest and best female nurses and physicians in the United States, and is for sale by all druggists throughout the world. Price 25 cents bottle. feb. 21-sw-ly

## Notice.

On and after July 19, 1890, George Becker, proprietor of the Reno Soda and Bottling works, will U and deliver in Reno:

Soda, cream and lemon, per doz..... \$ 50

Ginger ale, per doz..... 75  
Sarsaparilla and Iron, per doz..... 75  
Pacific bottled beer, per case..... 3 50  
Fredricksburg San Jose beer, per case 3 50

When Baby was sick,  
We gave her Castoria.

When she was a Child,  
She cried for Castoria.

When she became a Miss,  
She clung to Castoria.

When she had Children,  
She gave them Castoria.

Excellent, reliable and economical are the stores and ranges sold by Lange & Schmitt. Every house and store should have them. Call and inspect before purchasing.

## MISCELLANEOUS.

## Dyspepsia

Makes the lives of many people miserable, and often leads to self-destruction. Distress after eating, sour stomach, sick headache, heartburn, loss of appetite, a faint, "all gone" feeling, bad taste, coated tongue, and irregularity of the bowels, are

Distress After Eating some of the more common symptoms. Dyspepsia does not get well of itself. It requires careful, persistent attention, and a remedy like Hood's Sarsaparilla, which acts gently, yet surely and efficiently. It tones the stomach and other organs, regulates the digestion, creates a good appetite, and by thus overcoming the local symptoms removes the sympathetic effects of the disease, banishes the headache, and refreshes the tired mind.

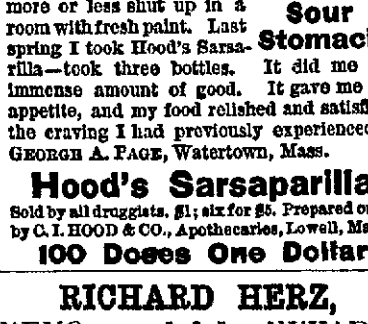

"I have been troubled with dyspepsia. I had but little appetite, and what I did eat distressed me, or did me little good. In an hour after eating I would experience a faintness, or tired, all-gone feeling, as though I had not eaten anything. My trouble, I think, was aggravated by my business, which is that of a painter, and from being more or less shut up in a room with fresh paint. Last spring I took Hood's Sarsaparilla—took three bottles. It did me an immense amount of good. It gave me an appetite, and my food relished and satisfied the craving I had previously experienced."
